**Mars (Mangal) Status for considering Partnership**

**Miss Smita Shah**, before you choose your life partner or business partner, it is always desirable, rather imperative, to match the horoscopes of both the proposed partners. The main matching criteria are (i) Moon-Nakshatra with charan, (ii) Moon-Rashi, (iii) Nadi, (iv) Saptamesh status, as well as (v) position of Mars, in the relevant basic Nirayan charts. Moon-Nakshatra with charan indicates, how far both the persons can be complementary to each other. This is indicated in terms of gunanks (marks). Moon-Rashi indicates the nature of harmony which can be established between these two persons. Nadi is useful to indicate the fertility or the fruitfulness of the proposed partnership. The status of Saptamesh (owner of seventh house) would indicate the quality and status of your happiness and benefits of the proposed partnership. The position of Mars plays very vital and important role as it can make the partnership a scintillating success or a disastrous failure. From this, Miss Smita Shah, you can realize the crucial importance of matching the Mars positions in the concerned horoscopes. When Mars occupies house number 1 or 4 or 7 or 8 or 12, in the basic Nirayan chart, the chart is called Mangalik. In such case, with certain exceptions, Mangal Dosh exists in the chart. To nullify such Mangal Dosh, the proposed partner's chart also should be Mangalik. Alternatively, in partner's chart, Saturn should occupy one of these Mangalik houses. This means, Saturn should be in house number 1 or 4 or 7 or 8 or 12. In the case of the charts, where Mangal Dosh is nullified or eliminated, the partnership can invariably result in full success. It may please be noted that, in certain exceptional cases, even though the chart is Mangalik, the Mangal Dosh is automatically eliminated. In such exceptional cases, the chart of the proposed partner can be Mangalik or non-Mangalik. In either case, partnership would be a real success.

**Miss Smita Shah, on evaluating the Mangal status as well as Saptamesh status in your basic Nirayan chart, our findings are as under. Your chart is Manglik. But Mars is in MithunRashi. Hence it eliminates the Mangal Dosh. Your partner can be Manglik or Non Manglik. Saptamesh Saturn is Swagruhi. Hence there is no Saptamesh Neench Dosh in your case.**

For matching the horoscopes of both the proposed partners, special program is designed by Shreeji Jyotish and computerized for Global Jyotish. This program takes into consideration all the above stated criteria, and provides its findings as well as its recommendations. To get matching results, only you have to provide the birth particulars of both the partners.

**All the Best Wishes in your Venture!**

(3) In case of Absurd or Impossible Predictions, what to interpret?

It is also not unlikely that, certain dasha or varsh-dasha predictions may look absurd or impossible. As an example, the prediction, "Your spouse may become sick." would look wrong, when you are not even married or are just a child! But, even then, it is likely that your spouse-to-be, wherever is, would become sick, in that period. This cannot be ascertained, unless research work is done. However, you can overlook such predictions.

(5) What is the precision of the Predictions?

This does not mean that you should blindly bank upon these predictions, taking them 100% correct. In this computer age, in case of computer aided scientific designs also, Safe Stress considered is hardly 25% to 30% of the yield point. Hence, you should not be upset, if any solitary prediction goes very wrong. Rather, it should be taken as a matter of research, where you can contribute by providing us the facts, after ensuring that your birth data are absolutely correct. We would appreciate and request you to state full details with absolute facts, regarding the predictions, you have found to be very correct, as well as those found absolutely wrong. This would be considered your honorary contribution towards our efforts in research.

(6) Last but not the least tip:

You should never lose your full faith and deep devotion to The Almighty Power, in whichever name, form or concept, you perceive. This can overrule your destiny, just like in case of Satyavan-Savitri and Bhakta Prahlad, particularly if your devotion is sincere and pious.
