Mars (Mangal) Status for considering Partnership

Miss Smita Shah, before you choose your life partner or business partner, it is always desirable, rather imperative, to match the horoscopes of both the proposed partners. The main matching criteria are (i) Moon-Nakshatra with charan, (ii) Moon-Rashi, (iii) Nadi, (iv) Saptamesh status, as well as (v) position of Mars, in the relevant basic Nirayan charts. Moon-Nakshatra with charan indicates, how far both the persons can be complementary to each other. This is indicated in terms of gunanks (marks). Moon-Rashi indicates the nature of harmony which can be established between these two persons. Nadi is useful to indicate the fertility or the fruitfulness of the proposed partnership. The status of Saptamesh (owner of seventh house) would indicate the quality and status of your happiness and benefits of the proposed partnership. The position of Mars plays very vital and important role as it can make the partnership a scintillating success or a disastrous failure. From this, Miss Smita Shah, you can realize the crucial importance of matching the Mars positions in the concerned horoscopes. When Mars occupies house number 1 or 4 or 7 or 8 or 12, in the basic Nirayan chart, the chart is called Mangalik. In such case, with certain exceptions, Mangal Dosh exists in the chart. To nullify such Mangal Dosh, the proposed partner's chart also should be Mangalik. Alternatively, in partner's chart, Saturn should occupy one of these Mangalik houses. This means, Saturn should be in house number 1 or 4 or 7 or 8 or 12. In the case of the charts, where Mangal Dosh is nullified or eliminated, the partnership can invariably result in full success. It may please be noted that, in certain exceptional cases, even though the chart is Mangalik, the Mangal Dosh is automatically eliminated. In such exceptional cases, the chart of the proposed partner can be Mangalik or non-Mangalik. In either case, partnership would be a real success.

Miss Smita Shah, on evaluating the Mangal status as well as Saptamesh status in your basic Nirayan chart, our findings are as under. Your chart is Manglik. But Mars is in MithunRashi. Hence it eliminates the Mangal Dosh. Your partner can be Manglik or Non Manglik. Saptamesh Saturn is Swagruhi. Hence there is no Saptamesh Neench Dosh in your case.

For matching the horoscopes of both the proposed partners, special program is designed by Shreeji Jyotish and computerized for Global Jyotish. This program takes into consideration all the above stated criteria, and provides its findings as well as its recommendations. To get matching results, only you have to provide the birth particulars of both the partners.

All the Best Wishes in your Venture!
