Horoscope Matching Evaluation and Recommendation

Comparing the Rashi, Nakshtra as well as Charan of Moon, in the charts of both the proposed partners, total Gunanks (Marks) calculated are 33.00. These are rated as Excellent Gunanks.

Only Female is Mangalik. But Male's Saturn offsets Mangal Dosh.

There is no Saptamesh Neench Dosh in both the charts of the proposed partners.

Male's and Female's Nadies are different. Hence, there is no Nadi Dosh.

Comparing Moon Rashi of both the proposed partners, it forms inauspicious Chaturtha-Dasham Yog. Hence, Moons are not matching so well.

In the female's birth chart, there is no Vish-Yog. This is really a good point.

In the male's birth chart, there is no Vish-Yog. This is really a good point.

Though Moons are not matching so well, as Gunanks are 33.00, and there is no Dosh at all, you can surely propose.

Criteria for Considering Partnership

Before you choose your life partner or business partner, it is always desirable, rather imperative, to match the horoscopes of both the proposed partners. The main matching criteria are (i) Moon-Nakshatra with charan, (ii) Moon-Rashi, (iii) Nadi, (iv) Saptamesh status, as well as (v) position of Mars, in the relevant basic Nirayan charts. **Moon-Nakshatra with charan** indicates, how far both the persons can be complementary to each other. This is indicated in terms of gunanks (marks). When Gunanks are 18 or more, they are considered good. **Moon-Rashi** indicates the nature of harmony which can be established between these two persons. If Moon Matching is auspicious or Good, it is preferable. However, if it is not properly matching, even then, in the case, where all other criteria are good, it may be acceptable. In such case, good amount of tolerance would be needed on either side to maintain the partnership. **Nadi** is useful to indicate the fertility or the fruitfulness of the proposed partnership. If Nadis are different, it is always considered good and without any Nadi-Dosh. However, where Nadis are the same, further consideration to Rashi and Nakshatra is to be given, to decide whether there is any Nadi-Dosh or not. If Nadi-Dosh exists, it is not advisable to go for the proposed partnership. **The status of Saptamesh** (owner of seventh house) would indicate the quality and status of your partner and the image of the proposed partnership. If Saptamesh is not Neech, we should not bother in this matter. Certain placement of Planets forms Vish-Yog. If the Vish-Yog is not eliminated, it is not advisable to go for the proposed partnership. As it may prove detrimental to the proposed partner or partner's relatives. The **Position of Mars** plays very vital and important role as it can make the partnership **a scintillating success or a disastrous failure**. From this, you can realize the crucial importance of matching the Mars positions in the concerned horoscopes. When Mars occupies house number 1 or 4 or 7 or 8 or 12, in the basic Nirayan chart, the chart is called Mangalik. In such case, with certain exceptions, Mangal Dosh exists in the chart. To nullify such Mangal Dosh, the proposed partner's chart also should be Mangalik. Alternatively, in partner's chart, Saturn should occupy one of these Mangalik houses. This means, Saturn should be in house number 1 or 4 or 7 or 8 or 12. In the case of the charts, where Mangal Dosh is nullified or eliminated, the partnership can invariably result in full success. It may please be noted that, in certain exceptional cases, even though the chart is Mangalik, the Mangal Dosh is automatically eliminated. In such exceptional cases, the chart of the proposed partner can be Mangalik or non-Mangalik. In either case, partnership would be a real success. **All the Best Wishes in your Venture!**
